GLOW Secrets

The new GLOW SECRETS trend edition gives you a desirable glow in no time! Both skincare must-haves complement each other perfectly: The new SENSATIONAL GLOW CREAM provides a lasting radiant effect that gradually builds up, while the MAGIC GLOW SERUM gives the complexion an immediately visible glow thanks to shimmering pigments.

SENSATIONAL GLOW CREAM

24-hour nourishment with a lasting glow effect! An intensely moisturising formula that contains dual hyaluron and Soft Focus pigments for an instantly enhanced-looking complexion. An algae extract from the Indian Ocean provides a significantly improved glow in the long term. The delicate texture calms sebaceous gland function thanks to the special bark extract, reducing the appearance of oily shine. It prevents the first signs of premature ageing and supports the skin's natural barrier. Aloe vera, niacinamide and allantoin have a soothing effect. The natural glow is perfectly enhanced by the MAGIC GLOW SERUM!

MAGIC GLOW SERUM

Do you want that instant glow? Our new MAGIC GLOW SERUM makes skin radiant in no time! Intensely moisturising hyaluronic acid and light-reflecting Soft Focus pigments conceal wrinkles and ensure a natural, fresh dewy complexion. At the heart of the innovative formula is an algae extract from the Indian Ocean which has been proven to improve skin radiance by 28% after 28 days while increasing skin moisture and firmness.

The shimmering 24-hour moisturiser combines perfectly with our SENSATIONAL GLOW CREAM.

Well protected at all times!

FACE GUARD ADVANCED

This innovative light protection concentrate with SPF 30 and IR protection protects the skin from premature, light-related skin ageing. The light emulsion contains photostable UVA and UVB filters and the active cell-protection ingredient Ectoin® and offers effective protection against infrared rays, which, just like UV rays, can accelerate skin ageing and cause long-term skin damage due to sunlight. **FACE GUARD ADVANCED** is suitable for all skin types and goes with any daily skin care regime!

Deeply nourishing treatment for DRY SKIN!

Many things can dry skin out, such as air-conditioned rooms, sun and wind. Consistent and daily care is therefore required, especially for skin that is naturally dry! When there is a lipid and moisture deficit, even young skin tends to develop wrinkles due to dryness, skin elasticity decreases significantly, the complexion looks pale and the skin loses its natural radiance. The DRY SKIN line gives dry skin an **amazing boost of hydration** and its new design and new highly-effective formulations will

win you over. Regular treatment with the DRY SKIN range helps make dry skin **smooth and supple again**, strengthening its **natural protective barrier** against external impact and **premature skin ageing**. Dryness wrinkles are reduced and the skin's protective barrier is restored. DRY SKIN provides deep and long-lasting moisture, restoring silky suppleness and a fresh, natural glow to the skin. Rejoice over our new tailor-made care **for your customers' dry and dehydrated skin!**
